

GATEWAY DISCUSSIONS

The **PRE-EMERGENT**

that helps Prevent Porn Addiction

It's important that you as a parent become comfortable talking to your child about their everyday encounters with sexual messages. This gateway discussion prepares the way for later more in-depth sexual conversations with your child. **Prevention research has identified a parent's comfort in talking to their child about a sexual topic is essential for later in-depth sexual conversations and successful pornography prevention.**

Simply stated, most parents are uncomfortable in discussing everyday sexual messages their children encounter – Sexual messages like *Victoria's Secret* TV ads; *Britney Spears' "Toxic"* music video; *Erectile Dysfunction* billboards; and the list goes on-and-on. A parent who struggles to acknowledge the hundreds of sexual messages encountered everyday will have difficulty in talking about more in-depth conversations of *good-and-bad touch, maturation, STD's, pornography, etc.* This course is one of several Foundation Gateway Discussions.

Discussions about everyday sexual messages are gateway conversations for all other sexual discussions!
